### FORMATION THE LEGAL BASE OF ENTREPRENEURSHIP

From the first years of economic reforms, support for the establishment and development of small business in Ukraine is one of the policy priorities. It is well known that small business plays an important role in increasing employment, providing a competitive environment, economic stability and growth, creating conditions for the middle class. Start building the business environment in the country (private small business) occur in the time of independence of Ukraine. But overall national development of entrepreneurship in 20 years of independence can be characterized as inconsistent and often problematic, but the main impact is the existence of a significant segment of private sector in the national economy. Today, with small and medium enterprise government hopes on fast positive structural changes in the economy and creating conditions for economic growth.
