PROCEDURES OF MARRIAGE REGISTRATION WITH FOREIGN ELEMENTS IN UKRAINE

These days, marriages between citizens of Ukraine and citizens from other countries are quite common. But despite their prevalence, there are still questions of urgent importance as to procedures of such marriages and their dissolution, in particular, where people should address to, how long procedures take or what documents required, etc.

For register a marriage in Ukraine it is necessary inter alia that persons reach marriageable age, free consent of both parties on conclusion of such marriage, there requirement of monogamy is followed, that is, persons should not be of an other matrimony, etc. It should also be noted that marriages between citizens of Ukraine and foreigners concluded outside Ukraine under the law of a foreign state are valid in Ukraine subject to the above requirements.
